

SPORT ENGLAND ACTION RESEARCH PROJECT BASELINE SURVEY

Sport England has given money to StreetGames to pay for the volunteering project that you are taking part in. Sport England has asked StreetGames to look at how well the project is working. To help the researchers to do this we would like to collect some information about you. This is important because if we know what difference volunteering is making to you and other people in your community, we can use that information to show why other projects like this should be given money to run in the future. That means that more young people like you will have the chance to take part in volunteering projects like this one.

We will ask you to answer some questions about you and your participation in the project. Don't worry: it is not a test and there are no 'right' or 'wrong' answers. We just want you to answer the questions honestly.

All personal information about you, such as your name, age and where you live will be kept confidential. This means that no one apart from the researchers at StreetGames will see any of your personal information. We will keep everything you tell us safe and we won't give your name or any information about you to anyone else.
